## MAT 327-Project 1

- 1. The reason for being interested in this dataset is because I want to see the data of NYCHA households. I founded this dataset here: <a href="https://data.cityofnewyork.us/Housing-">https://data.cityofnewyork.us/Housing-</a>
  <a href="Development/NYCHA-Residential-Addresses/3ub5-4ph8/about\_data.">https://data.cityofnewyork.us/Housing-</a>
  <a href="Development/NYCHA-Residential-Addresses/3ub5-4ph8/about\_data.">https://data.cityofnewyork.us/Housing-</a>
  <a href="Object-10">Development/NYCHA-Residential-Addresses/3ub5-4ph8/about\_data.</a>
  <a href="NYC Housing Authority">NYC Housing Authority</a>
  <a href="NYCHA">(NYCHA)</a>
  <a href="Development">NYC Housing Authority</a>
  <a href="Object-10">(NYCHA)</a>
  <a href="Development">Development</a>
  <a href="https://data.cityofnewyork.us/Housing Authority">NYC Housing Authority</a>
  <a href="https://data.cityofnewyork.us/Housing Authority">NYC Housing Authority</a>
  <a href="https://data.cityofnewyork.us/Housing Authority">https://data.cityofnewyork.us/Housing Authority</a>
  <a href="https://data.cityofnewyork.us/Housing Authority">NYC Housing Authority</a>
  <a href="https://data.cityofnewyork.us/Housing Authority">https://data.cityofnewyork.us/Housing Authority</a>
  <a href="https://data.cityofnewyork.us/Housing Authority"
- 2. The question I would like to answer for this project is what bar plot of the column borough is and what housing has the most residents in this dataset.
- 3. The columns building tells what the building number of the project is, borough tells us what borough the building is is, zip code of the building, address of the building.
